#### THEIR PREVENTION AND CURE.

November is the month of falling tem-peratures. Over all the temperate regions the hot weather has passed and the first rigors of winter have appeared. As the great bulk of civilized nations is located in the Temperate Zones, the effect of changing seasons is

the human body must adjust itself to the changed condition or perish.

The perspiration incident to warm weather has been checked. This detains within the system poisonous materials which have heretofore found escape

which have heretofore found escape through the perspiration.

Most of the poisonous materials retained in the system by the checked perspiration find their way out of the body, if at all, through the kidneys. This throws upon the kidneys extra labor. They become charged and overloaded with the poisonous excretory materials. This has a tendency to inflame the kidneys producing functional diseases of the kidneys and sometimes Bright's Disease. Peruna acts upon the skin by stimulating the emunctory clands and ducts, thus preventing the detention of poisonous materials which should pass out. Peruna in vigorates the kidneys and encourages them to fulfill their function in spite of the chills and discouragements of cold weather.

#### MEANING OF A KISS.

(Scrap Book).

The dictionary informs the breathless seeker after truth that a kiss is a form of salution expressed by the contact, with pressure, of the lipswhich definition, though clear and concise, seems to leave something to be desired.

Jonathan Swift testily remarks: "Lord! I wonder what fool it was that first invented kissing" and many more are the disgruntled speeches which have been made by men and women ever since the art first became known on earth.

It is probable that every mother's son of us-and daughter, too-has some sort of idea of what a kiss is, in spite of the reticence of the language Solons, but it is doubtful if any one ever clothed the idea more appropriately than the lover who in 1679 wrote the epistle from which the following extract is taken. It is translated from the German.

What is a kiss? A kiss is, as it were, a seal expressing our sincere attachment; the pledge of our future union; a dumb, but at the same time audible, language of a living heart; a present, which at the same time it is given is taken from us; the impression of an ardent attachment on an ivory coral press; the striking of two fints against one another; a ermson balsam for a love-wounded heart: a sweet bite of the lip; an affetcionate pinching of the mouth; a delicious dish which is eaten with scarlet spoons; a sweetmeat which does not satisfy hunger; a fruit which is planted and gathered at the same time; the quickest exchange of questions and answers o ftwo lovers; the fourth degree of love.

#### A DOCTOR'S TRIALS.

He Sometimes Gets Sick Like Other People.

Even doing good to people is hard work if you have too much of it to do. No one knows this better than the hard-working, conscientious family doctor. He has troubles of his ownoften gets caught in the rain or snow, or loses so much steep he sometimes gets out of sorts. An overworked Ohio doctor tells his experience:

"About three years ago as the result of doing two men's work, attending a large practice and looking after the details of another business, my health broke down completely, and I was little better than a physical

on the theme. "Loyalty to the Truth," the Rev. I. W. Henderson, pastor, took as his text I. Kings 22:14: 'And Micaiah said, as the Lord livthat will I speak." He said:

The four hundred false prophets preted and delivered the oracles to suit the king's whim. They paid small attention to the measure of truth that their judgment contained. If they discovered wrong, they kept niet about it. If they foresaw evil, hey were equally silent. To be operest dictated that they should reurn to the king good omens or none. Pessimistic prophesies landed a man in prison; and since Ahab wanted to be coddled and cajoled and flattered, the motto, "thus saith the Lord," are they humored him to the best of their not truth. There are false prophets ability and to his full capacity. They to-day no less than in the reign of were optimistic patriots. Therefore they were favorites at court.

Ahab hated Micaiah because he spoke the truth as it came to him direct from God. The monarch disliked premonitions of future evil and demonstrations of existing sin. He preferred a fancied security to definite knowledge of conditions as they were. As Ahab complained to Jehoshaphat. Micaiah prophesied not mate his noblest ideals. But by it he good, but evil; and for that reason he was heartily happy to jail him.

Micaiah might easily have taken the favor of Jehovah was more satistying than were the praises of any "As the Lord liveth, what the Lord saith unto me, that will I speak," he says; and his words are duty we should follow in our time. Too many of us lack the fidelity

of Micaiah because we fear unpopufarity. Cowardice supplants courage in no few hearts that are aglow with vision of the truth because men Optimistic patriots in the church and out of it, with no eye save for the glowing, lustrous surface which hides a central life bitten deep with men of the mold of Micaiah; men to sin, decry as pessimistic the man who paints the evil as it is.

It takes easier upon the head to relate blithely the unexampled progress of your ily or yourself in the attainment of the fidelity of the prophets of ancient material advantages, than it is to decide whether or no the gain was made righteously and in the fear of God, future happiness and helpfulness for all concerned. It is far more satisall concerned. It is far more satisto express it tersely, intelligently, factory, from the point of view of forcefully, fearlessly. I say we forget. I may be wrong. Perhaps we only then remember.

We must have Micaiahs, men of loyalty to the truth at all hazards and at any cost, no less to-day than in the year that Ahab and Jehoshaphat went against the Arameans at Ramoth-Gilead. Our age, our country, the church has need, and a great need, for men who will speak forth what the Lord saith unto them. To be sure those "who are folding thei, arms in selfish ease" will declare them, as they did the Garrisons, the Phillipses of the sixties, anarchists and fit subjects for the gallows. The man who would battle with the social evil to the death and declare the wisdom and the truth of God unto a white life for two sexes will find detractors and enemies on every hand. He who will annihilate the monster of intemperance and of legalized iniquity will. #### The Power Will Be Given.

When Cyrus captured Sardis, the only son of Croesus, who was dumb. saw a soldier ready to give the king whom he did not know, a stroke upon the head with his scimitar. The sor made such a violent effort to save his father by a word that he broke the string of his tongue, and cried out "Soldier, spare the life of Croesus!" And so, if we love Christ and His cause earnestly, our tongues will be loosened.

#### A Lazy Liver

May be only a tired liver, or a starved liver. It would be a stupid as well as savage thing to beat a weary or starved man because he lagged in his work. So in treating the lagging, torpid liver it is a great mistake to lash it with strong drastic drugs. A torpid liver is but an indication of an ill-nourished, enfeebled body whose organs are weary with over work. Start with the stomach and allied organs of digestion and nutrition. Put them in working order and see how quickly your liver will become active. Dr. Pierce's Golden Medical Discovery has made many marvelous cures of "liver trouble" by its wonderful control of the organs of digestion and nutrition. It restores the normal activity of the stomach, increases the secretions of the blood-making glands, cleanses the system from poisonous accumulations, and so relieves the liver of the burdens imposed upon it by
